## About Venture Forthe

Venture Forthe is the leading home care services agency in Western New York.

Venture Forthe is a local and family owned agency, that has been helping people since 1997.

We believe in a different approach to home care; our goal is to help clients maintain their dignity and independence.

Venture Forthe's comprehensive set of services extends beyond traditional home care support to provide a personalized care plan that enables you and your loved one to remain safe and independent.

## Dementia Care Program

*Effective Personalized Solutions*

[www.VentureForthe.com](http://www.VentureForthe.com)

## Dementia Care Program

Our care team builds a care plan that is personalized for each family and based on the client's health and social history - it is not a one-size-fits-all process. We don't just pick a caregiver. We individually match a client with a Memory Care Counselor and with a trained personal caregiver.

The care plan provides a roadmap for everyone involved, the counselor, caregiver and family. The plan focuses on the most meaningful way to engage the person living with dementia-- catering to their unique habits, preferences and behavioral changes.

The Dementia Program uses a positive, failure-free approach. This approach crafts a calm and supportive environment to strengthen a client's self-esteem when they are most vulnerable. It is an invaluable solution to help your loved one cope with the challenges of Alzheimer's disease or a related dementia.

Our Memory Care Counselors focus on the client's strengths and interests. The goal is to utilize the hobbies and activities a client enjoys and to create meaningful moments that can continue to adjust as a client's cognitive abilities change.

## Program Features

- A Personalized Care Plan that addresses the unique needs and goals of the client
- A Memory Care Counselor that works with the client, the family, and the caregiver to re-direct behaviors and provide education.
- Memory Care Counselors are **Certified Dementia Practitioners, CDP®**. All have completed nationally accredited, comprehensive training and coursework.
- Our caregivers are all certified and trained PCAs. They receive supplemental and hands on training from our Memory Counselors on caring for individuals with dementia.
